

IMPACT TODAY, LEGACY TOMORROW

At Mississauga Foundation, we understand the importance of making a meaningful impact in our community through giving. As valued donors, we recognize that you share our commitment to creating positive and lasting change, but also want to see urgent needs addressed in our community today.

Introducing - The Grant and Grow Solution

Grant and Grow amplifies the impact of endowed funds.

Immediate Impact Today, Enduring Legacy Tomorrow

We empower our donors by redirecting a portion of your donation directly to the charity of your choice, ensuring a more immediate impact in our community. Simultaneously, we continue to build your long-term legacy through the endowment, creating a lasting influence that extends well into the future.

Grant and Grow - How it works :

60/40 Allocation:

- Grant and Grow employs a thoughtful 60/40 allocation strategy, balancing 60% of the donation towards the growth of an existing endowed fund, and directing 40% towards immediate impact.

Enduring Impact:

- As with all endowed funds, donors can trust that the endowed portion of their donation is invested, but never spent.
- With a Grant and Grow direction, endowed funds will have an immediate impact in our community today, while continuing to give tomorrow and forever.

“Through Grant and Grow, I witness my vision unfold as it provides immediate impact and allows my fund to consistently generate positive change, both in the present and for the future.”

-Jim Kennedy.
